OVERALL TEAM REFLECTION

In 2–4 sentences: How would you describe the team's overall collaboration? What was the biggest challenge you faced together, and how did the group handle it?

The team's overall collaboration is okay. The biggest challenge we faced was others (including me) weren't able to fully do their tasks on-time, and didn't really help or collaborate much with the group as a whole. The hindrance that kept me from fully cooperating is I faced technical difficulties at middle-last part of our sprint, and I was able to do my task in early/final sprint, but i didn't help although out in our group, that was my big mistake but overall, it was a lesson learned experience.
