

PEER EVALUATION FORM

Student Mental Health & Wellness Tracker

EVALUATOR INFORMATION

Your Full Name:	Lorenzo Nheo M. Queñano	GitHub:	@enzo-q
Your Role:	Developer	Section / AY:	3BSCS-2 <2025-2026>
Date Submitted:	05/04/2026		

INSTRUCTIONS

1. Complete one copy of this form for each of your 4 teammates. Do NOT evaluate yourself.
2. Rate each criterion honestly based on your direct observations throughout the project.
3. Your responses are confidential — the instructor will use aggregate scores, not individual attributions.
4. Written comments (Strengths / Areas for Improvement) are required for each member.
5. Submit all 4 completed forms to your instructor before the defense date (S5-ALL-01).

MEMBER 1 BEING EVALUATED

Full Name:	Ralph Anthony B. Biazon	GitHub:	@acesoo
Role:	Project Manager		

Rate each criterion on a scale of 1 (Poor) to 5 (Excellent). Circle or mark the appropriate number.

1 — Poor	2 — Below Average	3 — Satisfactory	4 — Good	5 — Excellent
----------	-------------------	------------------	----------	---------------

#	Criterion	What to Assess	1	2	3	4	5
1	Quality of Deliverables	Were their role deliverables (docs, code, wireframes, etc.) complete, accurate, and meeting project standards?					☐
2	Contribution to Team	Did they actively contribute to team discussions, decisions, and shared tasks beyond just their own role?					☐
3	Reliability & Deadlines	Did they consistently meet deadlines and complete tasks on time without needing reminders?					☐
4	Communication	Did they communicate blockers, progress, and questions clearly during standups and in team channels?					☐
5	Technical / Role Competence	Did they demonstrate understanding of their role's responsibilities and the skills required?					☐
6	GitHub Participation	Did they commit regularly, write descriptive commit messages, and participate in PRs and Issues?					☐

#	Criterion	What to Assess	1	2	3	4	5
1	Quality of Deliverables	Were their role deliverables (docs, code, wireframes, etc.) complete, accurate, and meeting project standards?			○		
2	Contribution to Team	Did they actively contribute to team discussions, decisions, and shared tasks beyond just their own role?					○
3	Reliability & Deadlines	Did they consistently meet deadlines and complete tasks on time without needing reminders?					○
4	Communication	Did they communicate blockers, progress, and questions clearly during standups and in team channels?					○
5	Technical / Role Competence	Did they demonstrate understanding of their role's responsibilities and the skills required?				○	
6	GitHub Participation	Did they commit regularly, write descriptive commit messages, and participate in PRs and Issues?					○
7	Collaboration & Teamwork	Were they respectful, open to feedback, and supportive of other members' work?					○
TOTAL SCORE (max 35):							32

Strengths — What did this member do particularly well?

He did a good job designing some of the page components. His work polishing the overall look of the site was also much appreciated.

Areas for Improvement — What could they have done better or differently?

It would be great if the wireframes were a bit more reliable. We ran into a few delays because the wireframes didn't exactly match the UI structure we actually planned to build.

MEMBER 3 BEING EVALUATED

Full Name:	Kim G. Moguer	GitHub:	@Kimmoguer
Role:	QA / Docs lead		

Rate each criterion on a scale of 1 (Poor) to 5 (Excellent). Circle or mark the appropriate number.

1 — Poor	2 — Below Average	3 — Satisfactory	4 — Good	5 — Excellent
----------	-------------------	------------------	----------	---------------

#	Criterion	What to Assess	1	2	3	4	5
1	Quality of Deliverables	Were their role deliverables (docs, code, wireframes, etc.) complete, accurate, and meeting project standards?			○		
2	Contribution to Team	Did they actively contribute to team discussions, decisions, and shared tasks beyond just their own role?		○			
3	Reliability & Deadlines	Did they consistently meet deadlines and complete tasks on time without needing reminders?	○				
4	Communication	Did they communicate blockers, progress, and questions clearly during standups and in team channels?		○			
5	Technical / Role Competence	Did they demonstrate understanding of their role's responsibilities and the skills required?			○		
6	GitHub Participation	Did they commit regularly, write descriptive commit messages, and participate in PRs and Issues?					○
7	Collaboration & Teamwork	Were they respectful, open to feedback, and supportive of other members' work?				○	
TOTAL SCORE (max 35):							20

Strengths — What did this member do particularly well?

He did well with his initial test cases, manually checking them to make sure the site ran smoothly without any major issues.

Areas for Improvement — What could they have done better or differently?

He definitely has the potential to do good work, but he barely helped during the early and middle parts of the sprint plan, which was a bit frustrating. He did finish his part by the end of the sprint, but being more consistent throughout would be much better.

MEMBER 4 BEING EVALUATED

Full Name:	Anthon Van B. Calban	GitHub:	@anthoncalban
Role:	KM Analyst		

Rate each criterion on a scale of 1 (Poor) to 5 (Excellent). Circle or mark the appropriate number.

1 — Poor	2 — Below Average	3 — Satisfactory	4 — Good	5 — Excellent
----------	-------------------	------------------	----------	---------------

#	Criterion	What to Assess	1	2	3	4	5
1	Quality of Deliverables	<i>Were their role deliverables (docs, code, wireframes, etc.) complete, accurate, and meeting project standards?</i>					○
2	Contribution to Team	<i>Did they actively contribute to team discussions, decisions, and shared tasks beyond just their own role?</i>			○		
3	Reliability & Deadlines	<i>Did they consistently meet deadlines and complete tasks on time without needing reminders?</i>					○
4	Communication	<i>Did they communicate blockers, progress, and questions clearly during standups and in team channels?</i>			○		
5	Technical / Role Competence	<i>Did they demonstrate understanding of their role's responsibilities and the skills required?</i>					○
6	GitHub Participation	<i>Did they commit regularly, write descriptive commit messages, and participate in PRs and Issues?</i>					○
7	Collaboration & Teamwork	<i>Were they respectful, open to feedback, and supportive of other members' work?</i>				○	
TOTAL SCORE (max 35):							30

Strengths — What did this member do particularly well?

He did a great job making sure his analyses were spot-on and easy to understand when we had to apply them to the app.

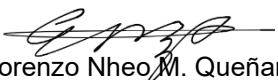

Areas for Improvement — What could they have done better or differently?

It would have been nice if he chipped in to help with other tasks, rather than just finishing his own and leaving the rest to us. Since a big part of this project is about collaboration, helping teammates who are having a hard time would have been really appreciated.

OVERALL TEAM REFLECTION

In 2–4 sentences: How would you describe the team's overall collaboration? What was the biggest challenge you faced together, and how did the group handle it?

The team's overall collaboration was just okay. The biggest challenge we faced was that some members weren't able to fully do their tasks, and others didn't really help or collaborate much with the group as a whole. But overall, it was a good collaboration experience.
