

PEER EVALUATION FORM

Student Mental Health & Wellness Tracker

EVALUATOR INFORMATION

Your Full Name:	Anthon Van B. Calban	GitHub:	@anthoncalban
Your Role:	KM Analyst	Section / AY:	3BSCS-2
Date Submitted:	May 4, 2026		

INSTRUCTIONS

1. Complete one copy of this form for each of your 4 teammates. Do NOT evaluate yourself.
2. Rate each criterion honestly based on your direct observations throughout the project.
3. Your responses are confidential — the instructor will use aggregate scores, not individual attributions.
4. Written comments (Strengths / Areas for Improvement) are required for each member.
5. Submit all 4 completed forms to your instructor before the defense date (S5-ALL-01).

MEMBER 1 BEING EVALUATED

Full Name:	Ralph Anthony B. Biazon	GitHub:	@acesoo
Role:	Project Manager		

Rate each criterion on a scale of 1 (Poor) to 5 (Excellent). Circle or mark the appropriate number.

1 — Poor	2 — Below Average	3 — Satisfactory	4 — Good	5 — Excellent
----------	-------------------	------------------	----------	---------------

#	Criterion	What to Assess	1	2	3	4	5
1	Quality of Deliverables	Were their role deliverables (docs, code, wireframes, etc.) complete, accurate, and meeting project standards?					☐
2	Contribution to Team	Did they actively contribute to team discussions, decisions, and shared tasks beyond just their own role?					☐
3	Reliability & Deadlines	Did they consistently meet deadlines and complete tasks on time without needing reminders?					☐
4	Communication	Did they communicate blockers, progress, and questions clearly during standups and in team channels?					☐
5	Technical / Role Competence	Did they demonstrate understanding of their role's responsibilities and the skills required?					☐
6	GitHub Participation	Did they commit regularly, write descriptive commit messages, and participate in PRs and Issues?					☐

Strengths — What did this member do particularly well?

He consistently communicates with us, provides updates on his project progress, and encourages team members to begin working on their assigned tasks.

Areas for Improvement — What could they have done better or differently?

Simply remain consistent in your efforts

MEMBER 3 BEING EVALUATED

Full Name:	Kim M. Moguer	GitHub:	@kimmoguer
Role:	QA / Docs Lead		

Rate each criterion on a scale of 1 (Poor) to 5 (Excellent). Circle or mark the appropriate number.

1 — Poor	2 — Below Average	3 — Satisfactory	4 — Good	5 — Excellent
----------	-------------------	------------------	----------	---------------

#	Criterion	What to Assess	1	2	3	4	5
1	Quality of Deliverables	Were their role deliverables (docs, code, wireframes, etc.) complete, accurate, and meeting project standards?		○			
2	Contribution to Team	Did they actively contribute to team discussions, decisions, and shared tasks beyond just their own role?	○				
3	Reliability & Deadlines	Did they consistently meet deadlines and complete tasks on time without needing reminders?	○				
4	Communication	Did they communicate blockers, progress, and questions clearly during standups and in team channels?	○				
5	Technical / Role Competence	Did they demonstrate understanding of their role's responsibilities and the skills required?		○			
6	GitHub Participation	Did they commit regularly, write descriptive commit messages, and participate in PRs and Issues?	○				
7	Collaboration & Teamwork	Were they respectful, open to feedback, and supportive of other members' work?		○			
TOTAL SCORE (max 35):							10

Strengths — What did this member do particularly well?

No outstanding matters.

Areas for Improvement — What could they have done better or differently?

He needs to perform his role consistently and effectively, adhere to deadlines, and avoid delaying his teammates so the project can progress to the next sprint. It's important to minimize excuses, since everyone faces challenges, yet we are still expected to complete our assigned tasks.

MEMBER 4 BEING EVALUATED

Full Name:	John Pete P. Casapao	GitHub:	@jpcasapao
Role:	UX/UI Designer		

Rate each criterion on a scale of 1 (Poor) to 5 (Excellent). Circle or mark the appropriate number.

1 — Poor	2 — Below Average	3 — Satisfactory	4 — Good	5 — Excellent
----------	-------------------	------------------	----------	---------------

#	Criterion	What to Assess	1	2	3	4	5
1	Quality of Deliverables	Were their role deliverables (docs, code, wireframes, etc.) complete, accurate, and meeting project standards?					○
2	Contribution to Team	Did they actively contribute to team discussions, decisions, and shared tasks beyond just their own role?					○
3	Reliability & Deadlines	Did they consistently meet deadlines and complete tasks on time without needing reminders?					○

5	Technical / Role Competence	Did they demonstrate understanding of their role's responsibilities and the skills required?					○
6	GitHub Participation	Did they commit regularly, write descriptive commit messages, and participate in PRs and Issues?					○
7	Collaboration & Teamwork	Were they respectful, open to feedback, and supportive of other members' work?					○
TOTAL SCORE (max 35):							35

Strengths — What did this member do particularly well?

Through regular and reliable execution of his responsibilities.

Areas for Improvement — What could they have done better or differently?

Simply remain consistent in your efforts.

OVERALL TEAM REFLECTION

In 2–4 sentences: How would you describe the team's overall collaboration? What was the biggest challenge you faced together, and how did the group handle it?

The group members managed their responsibilities well by completing tasks according to their assigned roles. The Project Manager consistently guided the team, reminding each of us to stay on track and preparing sprint files each week. His presence as a leader was evident through regular project updates and notifications. The Developer and UX/UI Designer collaborated closely to synchronize their work and carefully follow the taxonomy I created, which ensured a proper flow throughout the project. However, we encountered challenges with the QA/Docs Lead, who often delayed progress by not completing his part on time. This forced us to handle his sprint tasks repeatedly, despite his frequent excuses. Overall, the project was executed successfully, with only minor difficulties from certain members, and the team's performance remained strong.
